

# SGTech E-Business Mission to Australia

9th – 14th May 2022 | Online

---

## About the Trade Mission

SGTech is the leading trade association for Singapore's tech industry. In partnership with SGTech, Foley & Associates will be hosting an **E-Business Mission** for seven Singaporean technology companies from May 9th-14th, 2022.

The objective of the E-Business Mission is to facilitate high quality meetings on behalf of the Singaporean tech companies participating, allowing them to explore opportunities for potential new business development, representation, and project collaboration within the Australian business community.

## Company Profiles and Meeting Scheduling

Foley & Associates, as the In-Market Consultant for SGTech, is working with the participating companies to coordinate and schedule high quality meetings in advance of the E-Business Mission Week, 9<sup>th</sup> to 14<sup>th</sup> May 2022. **For further information, or to request a meeting with a specific Singaporean company, please contact the nominated F&A Project Manager in Sydney.**

## Accredify

Accredify provides document and credential verification as a service and is generally integrated within larger digital identity projects and platforms. Accredify is currently working with primarily Singaporean public sector companies and government enterprises. The company is working with one existing end user here in Australia in this regard, 4Cyte Pathology. Areas of interest for the company are business document verification, licences and permit verification, regulatory integrations and credentialing for higher education and training.

**Mission:** Accredify is interested in meeting specifically with **systems integrators and consultants** working in the **digital identity, blockchain and cybersecurity verticals**, with an eye to develop in market partners as it expands in Australia.
